DETAILED ACTION

Status of the Claims

Claim 6 has been amended. Claim 10 has been canceled. New claims 11-13 have been added. Currently claims 1-9 and 11-13 are under Examination. The said claims have been renumbered as claims 1-12.

Allowance

The following is an examiner's statement of reasons for allowance: In claims 1-12, as renumbered, Applicants claim a process for preparing alkaline and alkaline earth dicarboxylate salts of hydroxycitric acid as described in the said claims. No prior art disclosing or suggesting the said method was found. The closest prior art, relevant to the instant purification method was in Subbarao et al, WO 00/48983 or Balasubramanyam et al, US patent 6160172 or 6395296. The said patents disclosed method for preparing double salts of hydroxycitric acid from Garcinia species. However, none of the said methods requires the pH adjustment of a solution used in the method by adding an extract of purified Garcinia fruit extract in order to produce the said double salt.

CONCLUSION

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

All post-Allowance Correspondence concerning this Application must be mailed to:
